OTHER USEFUL FEATURES:

1) Use these buttons to navigate the interactive map, visualise the planned burns in your area and see what stage a burn is at:

2) Use the Legend for explanations of the stages of each burn and to assist navigation:

Coloured dots on the map reflect colours in the legend e.g planned burns are the blue dots, burns to be ignited within the next 24 hrs are in pink, burns declared safe are green etc:

3) To view only the 'Planned Burns' (and see only burns planned over the next three years) – click on all other categories to deselect, except 'Planned Burns'. Buttons in the top left corner will turn blue when deselected (and white when selected) and only the blue dots (that reflect the planned burns) will be visible on the map:

(Similarly, if you would like to only see burns that are scheduled to be ignited in the next 24 hrs, deselect all other categories except 'Next 24 hours'. Buttons will turn blue when deselected and only the pink dots will be visible on the map. Repeat for each stage or select all to view all information on the map at the same time).

4) For further information about a particular burn click on the relevant dot:

The screen will zoom in and give further information about that particular planned burn:

5) If you have deselected all other categories except 'Planned Burns' and zoom in to an area, you can clearly see all the planned burns in the map and listed down the left-hand side:

(Similarly, if you have deselected all other categories except 'Next 24 hours' and zoom in to an area, you can clearly see all the planned burns scheduled to be ignited within the next 24 hrs in the map and listed down the left-hand side. Repeat for each stage or select all to view all information on the map at the same time).
