

The Eastern Victoria Geoscience Initiative Survey is progressing well having covered over 420km.

Line 1, North East Victoria, was completed over the Easter weekend and the survey team are now working on Line 2.

Line 2 commenced just north of Benambra on the Beloka Rd and is now on the eastern side of McKillops Bridge and the Victoria part of the survey is expected to be completed by the end of next week.

Over the next 7 days the survey will continue along McKillops Rd(Bonang), McKillops Rd (Tubbut), Bonang Rd (Bonang), Yalmy Rd (Bonang), Monkey Top Track (Bonang), Old Bendoc-Bonang Rd (Delegate River), Old Bendoc-Bonang Rd (Bendoc) and Lower Bendoc Rd (Bendoc) before heading across into New South Wales where Geological Survey of New South Wales continue with the survey.
